Disclaimers & Notes

Hello. Rise is still in development, but I think you may have already seen a lot of it. Please look forward to the introduction of our Upcoming New Features and the monthly Devil Gods update, as well as our pre-order bonuses. What's more, please keep in mind that Rise is a very time-intensive game. It's developed on a 1-year schedule, which means that it generally takes about five or six months to develop a feature, then three to five months before it reaches an "already bueno" stage. So please be patient. If you have any questions, concerns, or feedback, please email us through the Contact section on our Rise website: contactus@koei-tactics.com

What's new in Elden Ring:

>T E P T O B A Y

No, I'm not leaving, just a reminder that the new in-development Star Ocean *Breath of the Wild* trailer has been published. The trailer focuses a bit more on the story than the last trailer, and you can

check it out here.

This video is so long, and it's so strange with the regular press conferences for major movies where a 3-minute-ish trailer is shown again and again, so huge props to Shaft Studios and Star Ocean for making a creative choice here.

Breath of the Wild is shaping up to be a great game, and it's a shame it wasn't announced at TGS; it would have been a great way to close out TGS after what is likely a long Japan exclusive period, though I'm sure we'll see it release at some point in the West. The Wii U eShop release has been confirmed (there's a 10% off for add-on Wii U GamePad games and digital editions), but I'd expect to wait until the game's official release to make the switch.
